

*“How **technology and creativity** are powerful learning tools for communication, inspiration, digital storytelling and design.”*

JPEG

Brainstorming....

What you hope the world will become in the future?

What you hope we will have more and less of in the future in correlation to these 4 words.

Inspiration: for the quest of seeking truth

How have these things changed over time due to technology?

Using these things to demand change and union among people?

Using these things to explore the gap between what we know and don't know.
